

How

SRAS can help with everything from the conceptual to the logistical aspects of your program.

- Concept and program design
- Logistics (accommodation and transportation)
- Specialized lectures, seminars, and roundtables
- On-the-ground services, including translation
- Service learning
- Cultural performances
- Workshops and other hands-on activities
- Socials with locals
- Visits to local businesses and organizations
- Marketing & promotion of your program
- Visa support for faculty and students
- Pre-departure materials and onsite orientation
- Online tools for managing groups and enrollments

Testimonials

 *"I want to give a shout out to @srasorg for working with me on all of my faculty-led study abroad programs. I am always looking for interesting and life-changing experiences for my students! Renee and her amazing colleagues are always willing to listen to my ideas and help make my vision come to life...I look forward to planning many more interesting programs with SRAS in the future!"*

| Nick Gossett,
Assistant Professor, Russian
University of South Alabama

 *"I came in order to see how it works to have a faculty member here who is not a Russian speaker and who doesn't have all that much familiarity with the city, but who is a specialist in the field, in this case visual culture....What I've found so far is that it is a very wonderful place to be teaching students within a city environment and have a living classroom."*

| Kim Rhodes,
Professor of Art History
Drew University

SRAS has developed and led educational programs abroad for more than 20 years. We collaborate with leading educational institutions and service providers across Eurasia to create innovative and affordable programming.

Why

Eurasia is rich in material for education abroad. We work together with you to produce original programming that will fit your curriculum and budget. Combine your great ideas with our extensive experience and create a program that dives into this region's major role in world history, contributions to the arts and sciences, or even its collaboration and competition in global politics, energy, technology, security, sport, and more.

Contact us for sample itineraries and to learn how we can work with you to lead your group abroad.
